RE: Agreement with LED Roadway Lighting

The Town of Amherst has entered into an agreement with LED Roadway Lighting for the supply of 89 LED street lights for installation in the Amherst Industrial Park and on Ratchford Street. In addition, the Town of Amherst amended its capital budget to include funding in the amount of \$9,000 for installation of these lights.

This initiative is not only in support of the local business that has developed this new LED technology, but also will reduce operating costs as well as provide a more environmentally friendly way to light our streets.
